

Landlord / Tenant Rental Counseling

Individual counseling by appointment.

We do not provide legal advice but we can give both landlords and tenants information about their rights and responsibilities under Maryland law. We can review your lease, discuss security deposit issues, rent court and the eviction process. Sometimes we recommend that clients obtain legal advice.

Financial Empowerment

Individual counseling by appointment.

This educational initiative will assist families of all income levels with stabilizing and improving their financial well-being. Counselors work with clients individually to set goals, repair credit, build a budget, and manage income and savings to achieve their financial goals.

"Financial empowerment" is having the knowledge, skills, and confidence to make money choices that help you reach your personal and financial goals. Citizens who are financially empowered are more stable and productive which benefits not only themselves, but our community as a whole.
